

Impact on Athletics

"I have played sports at Nanaimo Christian School for the last 5 years, and they have created some of my best high school memories. A piece that was missing from my high school sports career was a sense of school community and support. A proper gym would not only encourage school spirit and community but allow our teams to feel proud of where they come from. Hosting tournaments and games and having a space for fans would completely open up the doors for our athletic program."

- Grade 12 Student

"I want to be on the national Canadian women's soccer team and gym class helps me be active and get even closer to being on the national team. Having a bigger gym would be so much better for our school, and me."

- Grade 6 Student

We love celebrating the athletic gifts of students at Nanaimo Christian School. It has been very exciting to see so many personal victories and team victories - both in accomplishments and character building.

Our challenge, as we continue to grow is that our gym is too small to meet the needs of our school. It is booked solid from the start of the day to the end of the day. Many of our sports teams need to practice off-site and hosting home games at the high school level is not possible. With the addition of a new gymnasium the opportunities for our students, the benefit to the community and the partnerships we can form, grow substantially. It is one more important piece in allowing us to impact the lives of students and our community beyond the traditional classroom.

Impact on Fine Arts

"A bigger rehearsal space would provide better acoustics which would help to save our music teacher's hearing and it would sound better."

- Grade 8 Student

Expanding our fine arts spaces allows us to meet the creative needs of students with facilities and technology conducive to artistic expression. An acoustically optimized band and choral rooms and individual rehearsal rooms will enhance students' musical performances. Seeing our students using their gifts has always been amazing but developing those gifts in a purpose built space could be inspirational.

Impact on Theatre Arts

"Theatre is such a great place to build confidence and relationships. I have had so many great experiences, and broadened so many friendships through drama."

- Grade 10 Student

A new gym and stage space will mean not only a larger area for more students to explore theatre, but also a larger audience space, so that more people in our community can experience the arts with us here at NCS. It is another way to celebrate the gifts of our students.
